3.1 Business

In 2015, the Group continuously enhanced the operational capabilities of its hospital network, facilitated resource sharing among its member hospitals and improved operational efficiency via center-satellite model. In 2015, the five hospitals owned by the Group enjoyed growing number of beds in operation, which increased from 1,760 beds in 2014 to 2,010 in 2015, and high utilization rate of beds, which generated stable revenue for the Group.

(北京怡寧醫院有限公司, “Beijing Yining”), increasing the beds of the medical facilities under its management from 150 in 2014 to 370 in 2015 and laying a solid foundation for further countrywide expansion.

In 2015, the Group’s specialized research team, whose members were increased to 12, published 25 papers of different types, 5 of which were incorporated into the Science Citation Database, and landed a project funded by the National Natural Science Foundation for the first time. As driven by the enhancement of our scientific research, the number of the Group’s doctors increased from 150 at the beginning of 2015 to 181 at the end of 2015, showcasing an initial effect of talents accumulation.

4.1 F

4.1.1 Revenue

The Group generates revenue mainly through the following two ways: (i) revenue from operating its owned hospitals, and (ii) management fees from managing healthcare facilities.

* For identification purposes only

Revenue from operating the Group's owned hospitals

Revenue from operating the Group's owned hospitals consists of fees charged for the outpatient visits and the inpatient services at its various hospitals, including treatment and general healthcare services, pharmaceutical sales and ancillary hospital services. The table below sets forth a breakdown of our revenue from and costs for operating the Group's owned hospitals for the periods indicated:

	F	t	31,
	D		2014
	2015		2014
	(RMB'000)		(RMB'000)
Treatment and general healthcare services	240,103		206,790
Pharmaceutical sales	87,740		77,384
Ancillary hospital services	2,270		1,828
Total revenue	330,113		286,002
Cost of revenue	206,283		178,766
Gross profit	123,830		107,236

Revenue from the Group's owned hospitals amounted to RMB330.1 million, representing a year-on-year increase of 15.4%, accounting for 96.1% of the total revenue of the Group for the Reporting Period, due to the increase in the annual effective service capacity of our owned hospitals and in average inpatient spending per day per bed. Patient visits received by the five of the Group's owned hospitals hit a new record, with outpatient visits of approximately 129,355 (2014: approximately 119,425) and inpatient bed-days of 689,244 (2014: 615,242). Average spending per outpatient visit increased to RMB486 (2014: approximately RMB482), and total average inpatient spending per day per bed increased to RMB384 (2014: RMB369), partly due to higher prices of certain medical services charged by Cangnan Kangning Hospital Co., Ltd. (蒼南康寧醫院有限公司) and Yongjia Kangning Hospital Co., Ltd. (永嘉康寧醫院有限公司) since March 1, 2015 and January 1, 2015, respectively.

Revenue from treatment and general healthcare services accounted for 72.7% of our revenue from operating our owned hospitals (2014: 72.3%), and revenue from pharmaceutical sales accounted for 26.6% of our revenue from operating our owned hospitals (2014: 27.1%).

Cost of revenue of the owned hospitals of the Group primarily consisted of pharmaceuticals and consumables used, employee benefits and expenses, leasing expenses, depreciation and amortization, canteen expenses and testing fees.

Cost of revenue of our owned hospitals increased to RMB206.3 million, representing a year-on-year increase of 15.4%, which was in line with the increase of revenue. Gross profit margin therefore stayed as 37.5% (2014: 37.5%).

Management service fee income

The Group's management service fee income is primarily derived from rendering management services to other healthcare facilities. The table below sets forth the breakdown of our management service fee income and costs for the periods indicated:

	F	t	31,
	D	2015	2014
	(RMB'000)	(RMB'000)	(RMB'000)
Revenue	13,561	10,294	
Cost of revenue	7,006	2,547	
Gross profit	6,555	7,747	

Management service fee income of the Group amounted to RMB13.6 million, representing a year-on-year increase of 31.7% and accounting for 3.9% of the total revenue of the Group for 2015, due to the contribution of the management fee in relation to the newly-entrusted Beijing Yining Hospital in 2015 which amounted to RMB1.7 million (2014: nil).

Cost of the Group for rendering management services primarily include benefits and expenses for management staff assigned and amortization of operation rights acquired for obtaining management rights.

Cost of revenue of management services increased to RMB7.0 million, representing a year-on-year increase of 175.1%, outpacing the increase of revenue, mainly because in April 2015, we commenced management of Yanjiao Furen Hospital. The Group acquired 19 years and 9 months of operation right of this hospital and recognized RMB93.1 million of intangible assets. RMB3.5 million was amortized for such operation right in 2015 as cost of revenue of management services. Accordingly, gross profit margin decreased to 48.3% (2014: 75.3%).

4.1.2 Gross Profit and Gross Profit Margin

Total gross profit of the Group amounted to RMB130.4 million, representing a year-on-year increase of 13.4%. Overall gross profit margin decreased to 37.9% (2014: 38.8%), reflecting the fact that despite of the stability in gross profit margin of our owned hospitals, the three new healthcare facilities under our management just commenced operation in the Reporting Period and are yet to be mature, which had a negative impact on the gross profit margin of the management and service business.

4.1.3 Other Income

Other income of the Group consists of government grants and provisions for accounts payable. In 2015, other income amounted to RMB3.1 million, representing a year-on-year increase of 346.2%, primarily due to government grants and subsidies.

4.1.4 Selling Expenses

In 2015, the selling expenses of the Group amounted to RMB2.0 million, representing a year-on-year decrease of 5.8%, accounting for 0.6% of the total revenue of this year (2014: 0.7%).

4.1.5 Administrative Expenses

Administrative expenses of the Group primarily consists of benefits and expenses for our management and administrative staff, expenses of the newly-built hospitals prior to their commencement of operation, depreciation, amortization and others.

In 2015, administrative expenses of the Group amounted to RMB62.5 million (2014: RMB45.6 million), representing a year-on-year increase of 37.1%, primarily due to: (i) an increase of RMB6.2 million in our employee benefits and expenses as a result of (1) the increase in our management, research and administrative staff and (2) performance-based bonuses distributed to the employees for their contribution to our business growth; (ii) an increase of RMB3.2 million in the rental fees of Wenzhou Yining Geriatric Hospital which is yet to commence operation; and (iii) an increase of RMB5.2 million in the one-off listing expenses related to our initial public offering.

4.1.6 Finance Income

In 2015, finance income increased to RMB7.6 million, representing a year-on-year increase of 917.8%, primarily because the proceeds from the initial public offering were deposited in Hong Kong dollars (“HK\$”). Higher exchange rate of HK\$ against Renminbi (“RMB”) increased the unrealized exchange gains by RMB9.8 million, which offset the finance expense relating to long-term payable of RMB4.0 million.

4.1.7 Share of Loss of Investments Accounted for Using the Equity Method

In 2015, share of loss of investment accounted for using the equity method amounted to RMB6.3 million (2014: nil), which represents our 49% equity interests in Beijing Yining Hospital, which commenced its operation in September 2015 and recorded loss after tax of RMB12.8 million.

4.1.8 Income Tax Expense

In 2015, income tax expense increased to RMB18.5 million, representing a year-on-year increase of 6.8%, primarily due to the higher profit before tax of RMB70.2 million (2014: RMB68.6 million). Our effective tax rate in 2015 and 2014 were 26.4% and 25.3%, respectively.

4.1.9 Net Profit

In 2015, profit attributable to the shareholders of the Company (the “Company”) amounted to RMB55.7 million, representing a year-on-year increase of 8.8% as compared with 2014.

4.2 Financial Position

4.2.1 Inventory

As of December 31, 2015, inventory balances decreased to RMB7.5 million (as of December 31, 2014: RMB7.9 million), primarily due to the decrease in pharmaceuticals inventory.

4.2.2 Trade Receivables

As of December 31, 2015, the balance of trade receivables increased to RMB123.1 million (as of December 31, 2014: RMB84.5 million), primarily due to: (i) the increase in our revenue over the same period in line with the business growth of our healthcare facilities; and (ii) the increase in the amount of trade receivables attributable to medical insurance programs. Approximately 79.5% of trade receivables of the Group were either bills not presented or aged within six months.

4.2.3 Other Receivables, Deposits and Prepayments

As of December 31, 2015, other receivables, deposits and prepayments increased to RMB91.0 million (as of December 31, 2014: RMB41.2 million), primarily due to: (i) the increase of RMB25.8 million in our prepayments for rental expenses relating to Wenzhou Yining Geriatric Hospital; (ii) the increase of RMB13.0 million relating to the prepayment for the purchase of a property for Pingyang Kangning Hospital Co., Ltd.* (平陽康寧醫院有限公司) (“平陽康寧醫院有限公司”), a wholly-owned subsidiary of the Company); and (iii) a loan of RMB12.0 million newly extended to Chengdu Renyi Hospital Company Limited by the Company.

4.2.4 Trade Payables

4.2.5 Accruals and Other Payables

As of December 31, 2015, accruals and other payables increased to RMB166.4 million (as of December 31, 2014: RMB60.0 million), primarily due to RMB90.5 million of long-term payables for contractual rights in relation to provision of management services, which represents the annual minimum performance targets for Yanjiao Furen Hospital as set forth in our management agreement for such hospital, aggregated over the duration of such management agreement. Please refer to paragraph 4.3.4 below for more details.

4.2.6 Net Current Assets

As of December 31, 2015, net current assets of the Group amounted to RMB664.0 million (as of December 31, 2014: RMB86.2 million), primarily due to an increase in current assets in the amount of RMB590.7 million which are the cash flow from the initial public offering, offset by an increase in current liabilities in the amount of RMB50.0 million as a result of drawing down a loan from China CITIC Bank which is due within one year.

We had net cash generated from operating activities before changes in working capital of RMB87.0 million, primarily consisting of profit before tax of RMB70.2 million and adjustments for depreciation of property, plant and equipment of RMB17.3 million. Changes in working capital resulted in cash outflow of RMB66.4 million, primarily consisting of an increase of RMB58.2 million in trade and other receivables as a result of: (i) increased treatment volume attributable to the continued expansion and scaling up of our healthcare facilities network; and (ii) our prepayments for rental expenses relating to Wenzhou Yining Geriatric Hospital. We had further cash outflow of RMB25.7 million attributable to our income tax paid.

4.3.2 Net Cash Used in Investing Activities

In 2015, net cash used in investing activities amounted to RMB382.4 million, primarily due to: (i) purchase of property, plant and equipment of RMB113.6 million, consisting of (1) amounts paid and prepaid to renovate and upgrade Wenzhou Kangning Hospital and (2) amounts paid to renovate Beijing Yining Hospital, Linhai Kangning Hospital and Wenzhou Yining Geriatric Hospital prior to their opening; and (ii) a term deposit with initial term over three months of RMB251.3 million.

4.3.4 *Significant Investment, Acquisition and Disposal*

The term of the entrustment management agreement is from April 2015 to December 2034, extendable if both parties agree three months prior to expiry. During the term of the agreement, the Group undertakes to provide management services to Yanjiao Furen Hospital and meet a predetermined schedule of annual minimum performance targets. The minimum performance target begins with RMB2.7 million for the period from April 1, 2015 to December 31, 2015, increases to RMB4.0 million for the year 2016, and subsequently increases by a predetermined fixed rate within the range of 4% to 10% until the year of 2034, for which the minimum performance target is RMB14.1 million. If Yanjiao Furen Hospital fails to meet such target, the Group is required to contribute the shortfall. On the other hand, the Group is entitled to receive any portion of profit (based on statutory accounts of Yanjiao Furen Hospital with certain adjustments agreed by two parties upfront in the entrustment management agreement) exceeding the performance target as its management income from Yanjiao Furen Hospital. As a result, the Group is effectively obligated to pay to Yanjiao Furen Hospital a predetermined amount over the term of the agreement in exchange for the contractual rights to provide management services to the hospital over the same period. The Group recognizes such contractual right to manage Yanjiao Furen Hospital and receive management service fees as intangible assets of RMB93.1 million on the balance sheet, measured initially at the amount calculated by discounting the future annual minimum performance target using the prevailing market interest rate.

Save as disclosed above, the Group had no significant investment, acquisition or disposal in 2015.

On February 22, 2016, the Company entered into an agreement to contribute RMB50.0 million to the Investment Fund, which shall invest in healthcare and other modern services industries. 4.3.6 Use of Proceeds from Initial Public Offering
